—It is true that the Sierra Lumber Company was fined \$41,000 last Saturday for stealing public timber. But when will the Sierra Lumber Company pay the \$41,000? At first thought, it might seem that it ought to pay the fine for it stole \$2,000,000 of timber, and \$41,000 would be a cheap compromise. Yet, as the company can feel pretty certain of reducing the \$41,000 to \$10,000 by appeals, etc., and perhaps of getting off altogether, would it not be foolish to yield the \$41,000? We must remember that the company is not composed of the sort of men who pick up a piece of lumber and go to jail for petty larceny. They are rich and leading citizens and don't notice anything smaller than a forest. Hence the difference in the result.—Daily Report.

—The dry cold weather of the early winter months is productive of a great deal of croup among children. Mothers should be on the lookout for it, and be prepared to arrest it as soon as the first symptoms appear. True croup never comes without a warning; a day or two before the attack the child will become hoarse, and that symptom is soon followed by a peculiar, rough cough. If Chamberlain's Cough Remedy is given as soon as this hoarseness or cough appears, all danger and anxiety may be avoided. It has never failed, even in the most severe cases. There is no danger in giving the Remedy for it contains no injurious substance. For Sale by G. C. Thaxter.

BECK'S BROOMS.

Illustrative of the Fools in Nevada.

"It's no use talking," said Assemblyman Beck of Washoe. "The people of Nevada are mostly d—fools. Other States are growing because they manufacture everything they use and keep the money at home. Nevada people can't learn the advantages of this system, and I guess they will never until the old crop of fogies die off and are buried."

"I will illustrate. Some years ago a man came to me and demonstrated that brooms could be made as cheaply in Reno as anywhere."

"He didn't have a cent, but he had a few samples, and I advanced him the money to start a broom factory."

"He made several hundred very fine brooms and then I placed them on sale at my store."

"People began to buy them and all who used them spoke in the highest terms of their durability and general worth."

"I got so proud of those brooms that I got a neat little label printed, 'Nevada Brooms' and pasted the label on each one."

"Well, would you believe that it killed the sale of those brooms completely. A man would come in and would get already to buy a broom, but the instant he saw the Nevada label on, he would begin to inquire for California brooms, and turning up his nose took a California broom over time."

"The manufacturer got so disgusted that he finally said he would quit the State where manufactures were so despised."

"Well, he went to California and kept making those same brooms and sent them to me to sell. Then I labeled them 'California Brooms' and they sold like hot cakes, only, I charged a little higher."

"Well, the result was that the people paid a trifle more for the same identical broom, made by the same identical man. The only difference was that the extra money they paid went to the railroad for freight, and when the manufacturer paid his hands off they spent their money in California, instead of Nevada, and the money that purchased the brooms went to California also."

"Talk about fools, these men who refused to purchase those brooms unless the maker moved over into California to spend his money instead of leaving it in Reno, ought to be placed in the idiot asylum for incurables. But they ain't there. They walk about the streets and prate about the resources of the State as if they were really helping in building it up."

—Dr. E. G. Winnie, dentist. Office on Telegraph street, two doors west of Zehner's fruit store. Office hours from 10 a. m. to 9 p. m. *
